

Draw the journey of the Titanic in a pictorial timeline. Use pictures on a timeline instead of words.

- The Titanic's 2,224 passengers and crew board the ship to begin its maiden voyage on 10th April 1912.
- The Titanic makes a stop in Cherbourg, France.
- The Titanic makes a stop in Queenstown (now known as Cobh), Ireland.
- On 14th April 1912: The Titanic hits an iceberg on her starboard side and begins taking on water.
- The captain orders his crew to start filling lifeboats 'women and children first'.
- The lifeboats are launched. Some of the boats are only half full.
- The lights on the Titanic go out as the bow sinks below the surface, lifting the stern into the air.
- The Titanic breaks into two pieces. The bow piece sinks, shortly followed by the stern a minute later.
- The Carpathia picks up the survivors in the lifeboats. There are only around 710 survivors.
- The Carpathia arrives in New York on 18th April 1912, carrying the Titanic's survivors.

Create a fact file on one of the passengers from the Titanic using different resources.

Draw a picture of a passenger from each of the 3 classes (first, second, third) on the Titanic to compare what they would be wearing.

Pick ONE of the classes from the Titanic and create, design and draw a menu from it.

The Titanic

Topic Homework

Due Date: Wednesday 17th July

Design and build a lifeboat.

Write an opinion paragraph on who you think is responsible for the sinking and loss of life on the Titanic. Why?

- The Captain (Captain Edward Smith)
- The architect (Thomas Andrews)
- The ship's owner (Bruce Ismay)
- The SS Californian
