

Geography
Year 3

Unit	Contrasting Counties	Russia	Himalayan Mountains
National Curriculum	locate the world's countries, using maps to focus on Europe (including the location of Russia) and North and South America, concentrating on their environmental regions, key physical and human characteristics, countries, and major cities. Name and locate counties and cities of the United Kingdom, geographical regions and their identifying human and physical characteristics, key topographical features (including hills, mountains, coasts and rivers), and land-use patterns; and understand how some of these aspects have changed over time. Describe and understand key aspects of rivers, mountains, settlements, land use and economic activity. Use maps, atlases, globes and digital/computer mapping to locate countries and describe features studied. Use the eight points of a compass, four and six-figure grid references, symbols and key (including the use of Ordnance Survey maps) to build their knowledge of the United Kingdom and the wider world.	locate the world's countries, using maps to focus on Europe (including the location of Russia) and North and South America, concentrating on their environmental regions, key physical and human characteristics, countries, and major cities. Identify the position and significance of latitude, longitude, Equator, Northern Hemisphere, Southern Hemisphere, the Tropics of Cancer and Capricorn, Arctic and Antarctic Circle, the Prime/Greenwich Meridian and time zones (including day and night). Understand geographical similarities and differences through the study of human and physical geography of a region of the United Kingdom, a region in a European country. Describe and understand key aspects of biomes, mountains, rivers, land use, economic activity, trade, the distribution of natural resources including energy, minerals and water. Use maps, atlases, globes and digital/computer mapping to locate countries and describe features studied.	locate the world's countries, using maps to focus on Europe (including the location of Russia) and North and South America, concentrating on their environmental regions, key physical and human characteristics, countries, and major cities. Identify the position and significance of latitude, longitude, Equator, Northern Hemisphere, Southern Hemisphere, the Tropics of Cancer and Capricorn, Arctic and Antarctic Circle, the Prime/Greenwich Meridian and time zones (including day and night). Describe and understand key aspects of climate zones, mountains, land use and economic activity. Use maps, atlases, globes and digital/computer mapping to locate countries and describe features studied.

Title of Unit (Enquiry Question)	How similar are our contrasting counties?	What impact does Russia's vast landmass have on its people? How do we compare this to the UK?	How does this incredible mountain range impact local communities?
Disciplinary Knowledge			 
Substantive Knowledge	 		
Knowledge	I know that the United Kingdom includes Northern Ireland. I know that each country is separated into different counties.	I know that Russia is a country in two continents. I know that Russia is the largest country in the world.	I know that the Himalayas are an Asian mountain range. I know that the Himalayas are the highest mountain range in the world.
	I know that the Lake District is a rural place of national beauty.	I know that Russia is home to different biomes because of its size.	I know that mountains are a product of tectonic plates colliding.
	I know that Cumbrian settlements are located near places of natural beauty.	I know that the River Volga is heavily polluted.	I know that climate zones change depending on how high you are.
	I know that the River Thames has supported Londoners for 2,000 years.	I know that Russia trades its abundance of minerals and diamonds.	I know that adventurers see the Himalayan mountains as a place of awe.
	I know that London is an urban place with a large population.	I know that, because of our scale and size, there are many differences between Russia and our home nations.	I know that the Himalayan people have different cultures.
	I know that there are differences and similarities between London and Cumbria.		
Skills	I can use a globe to locate the countries of the United Kingdom. I can use an atlas to identify different counties.	I can use the "string technique" to show how much larger Russia is than the UK.	I can use the "string task" to compare the size and scale of the Himalayas to the Cumbrian mountains. I can use an atlas to locate the Himalayas.
	I can use the physical features of the Lake District to influence a piece of my own artwork.	I can use pictures of Russia's environment to identify different forms of biome.	I can label a diagram to show geographical ideas.
	I can explain the positives and negatives of building near places of natural beauty.	I can explain how the River Volga exploded.	I can pictorially represent the climate zones found as you climb the Himalayan mountains.
	I can use an OS Map of London to identify infrastructure next to the River Thames.	I can use graphs to gather geographic information.	I can express my opinion using learned geographical facts.

	I can use an OS Map of London to identify physical features.	I can use images to identify the similarities and differences.	I can show interest in people from different geographical backgrounds.
	I can use images to identify the similarities and differences between two contrasting counties.		
Vocabulary	 settlement  hamlet  village  town  city  mega  city  physical  human  river  trade	 country  continent  biome  environment  mineral  resource  scale  pollution	 mountain  range  climate  zone  awe  culture  scale  topography
