

Mathematics:

Week 1: Representing objects to 10.

Week 2: Counting forward and backwards within 10. One more and one less within 10.

Week 3: Comparing numbers/objects within 10.

Week 4: Ordering numbers within 10.

Week 5: Introducing the part-whole model.

Week 6: Number bonds to 10.

Week 7: Addition

PSHE:

Me and My Relationships

Children will begin their year discussing classroom rules and why they are in place. They will then move on to recognising and exploring their feelings and how other people might be feeling based on their body language and reactions, who to speak to when they are upset and how to regulate their own emotions. Finally, students will identify the qualities of a good friend and how to resolve conflict situations through positive feedback and good listening

Literacy

Class Texts: Super Duper You, Five Minutes Peace, The Great Big Book of Families, Knuffle Bunny and various poems inspired by the senses.

A celebration of themselves! Children will begin their writing journey becoming familiar with texts about themselves and their families, learning how to label and caption pictures with nouns, adjectives and noun phrases. They will finish the term writing poems about the senses.

SPAG:

Nouns, adjectives, noun phrases, finger spaces, full stops and capital letters.

Science

Animals Including Humans - The Human Body and our Senses:

In this unit, children will learn about the human body, naming, drawing, and labelling basic body parts. They will engage in a variety of investigations using their senses as a guide to conduct their experiments. They will learn which body part is associated with which sense. Finally, they will finish the term looking at the seasons, starting with the Autumn.

Marvellous Me

Year 1 – Autumn 1

D&T / Art

Art - Portraits:

Children will create self portraits using a variety of design techniques such as using pencil and colour and learning about collage and patterns in pop art.

DT - Junk Model Homes

Creating homes from household items.

P.E.

Students will focus on developing their ball skills through bouncing, dribbling, throwing and catching and will also practice team building exercises.

I.C.T

Popplet: is a fantastic multi-purpose app that can be used to take and sequence photos. Children will use this app to record some of the learning taking place in the class, whether its in a science lesson or story mapping in English.

Music

Hey You! Using Charanga Musical School, which is supported by the Cornwall Music Service Trust, students will learn about pulse, rhythm and pitch through old school hip-hop, learning how to rap in its original form!

Religious Education

Islam - Who is Muslim?

Children will be introduced to the Islam religion, learning about what Muslims think about God, why God is so important, the many names for God. They will finish the unit learning about the prophet Mohammed and why he is a leader for Muslims.

Geography

What is the Geography of Where I live?

In this unit, students will be introduced to the basic vocabulary used to describe key physical and human geographical features. They will be introduced to 'Google Earth' and will use the application to study aerial photos and perspectives of their local area, identifying landmarks and roads as well as learning where the continents and oceans are on maps. Finally, they will consolidate their learning with a walk around the area using a map they constructed in class.
