Science

Animals Including Humans

In this unit, children will learn about five of the groups that scientists use to classify animals: mammals, fish, birds, reptiles and amphibians. They will learn to identify the group an animal belongs to by its features and will classify animals according to their group. They will also learn about the different diets animals eat.

History

Kings and Queens:

This Kings and Queens unit will teach your child about the significant British monarchs in history, and gives a more in-depth study of Richard III as well as asking the children to draw comparisons between Elizabeth I and Queen Victoria. The unit consolidates the children's awareness of the past and significant individuals through using timelines and making comparisons between various periods in history.
